Contents

Volume 18, Number 1, January 1991

John C. Briggs: Guest Essay: Historical biogeography: the pedagogical problem 3

Recent vegetation change and tree refugia

Christophe Thébaud and Max Debussche: Rapid invasion of *Fraxinus ornus* L. along the Hérault River system in southern France: the importance of seed dispersal by water 7

Anneke de Rouw: The invasion of *Chromolaena odorata* (L.) King & Robinson (*ex Eupatorium odoratum*), and competition with the native flora, in a rain forest zone, south-west Côte d'Ivoire 13

S. G. Haberle, G. S. Hope and Y. DeFretes: Environmental change in the Baliem Valley, montane Irian Jaya, Republic of Indonesia 25

Robert J. Whittaker: The vegetation of the Storbreen gletschervorfeld, Jotunheimen, Norway. IV. Short-term vegetation change 41

Leif Kullman: Structural change in a subalpine birch woodland in North Sweden during the past century 53

Leif Kullman and Ola Engelmark: Historical biogeography of *Picea abies* (L.) Karst. at its subarctic limit in northern Sweden 63

Graeme Whittington, Kevin J. Edwards and Peter R. Cundill: Palaeoecological investigations of multiple elm declines at a site in north Fife, Scotland 71

Richard Tipping: The climatostratigraphic subdivision of the Devensian Lateglacial: evidence from a pollen site near Oban, western Scotland 89

K. D. Bennett, P. C. Tzedakis and K. J. Willis: Quaternary refugia of north European trees 103

Book reviews 117

Short notice 120

Volume 18, Number 2, March 1991

Tony Allan: Guest Editorial: Global biogeography: who is responsible? 121

Environmental gradients: latitude, elevation, and endemism

Robert B. Allen, Robert K. Peet and William L. Baker: Gradient analysis of latitudinal variation in Southern Rocky Mountain forests 123

M. G. Barbour, N. H. Berg, T. G. F. Kittel and M. E. Kunz: Snowpack and the distribution of a major vegetation ecotone in the Sierra Nevada of California 141

Kathleen C. Parker: Topography, substrate, and vegetation patterns in the northern Sonoran Desert 151

Karl S. Zimmerer: The regional biogeography of native potato cultivars in highland Peru 165

Peter L. Meserve, Douglas A. Kelt and David R. Martinez: Geographical ecology of small mammals in continental Chile Chico, South America 179

M. T. Hoffman and R. M. Cowling: Phytochorology and endemism along aridity and grazing gradients in the lower Sundays River Valley, South Africa: implications for vegetational history 189

D. M. J. S. Bowman and Leonie McDonough: Tree species distribution across a seasonally flooded elevation gradient in the Australian monsoon tropics 203

Harold Heatwole: Factors affecting the number of species of plants on islands of the Great Barrier Reef, Australia 213

J. E. Williams: Biogeographic patterns of three sub-alpine eucalypts in south-east Australia with special reference to *Eucalyptus pauciflora* Sieb. ex Spreng. 223

John E. Brittain and Ian C. Campbell: The effect of temperature on egg development in the Australian mayfly genus Coloburiscoides (Ephemeroptera: Coloburiscidae) and its relationship to distribution and life history 231

Book reviews 237

Volume 18, Number 3, May 1991

Graham Chapman: Guest Editorial: Whose knowledge counts? 243

Species patterns in geographical and environmental space

M. O. Hill: Patterns of species distribution in Britain elucidated by canonical correspondence analysis 247

Marc Dufrêne and Pierre Legendre: Geographic structure and potential ecological factors in Belgium 257

Catherine A. Duigan and Warren L. Kovach: A study of the distribution and ecology of littoral freshwater chydorid (Crustacea, Cladocera) communities in Ireland using multivariate analyses 267

Sarah M. Gardner: Ground beetle (Coleoptera: Carabidae)

Erratum

Please note that in the formula given in column 2 of p. 464 in the paper by David Hamilton Wright, Correlations between incidence and abundance are expected by chance, *Journal of Biogeography* (1991) **18**, (4), 463–466, the division sign (÷) should be an addition sign (+). The formula is correctly given as:

$$p = 1 - \left(1 + \frac{\mu}{k}\right)^{-k}$$
